LIVE THE NEW FOREST FUTURE

Northern Forest Center

The Center finances its housing projects through the Northern Forest Fund, an impact-first integrated capital fund that allows the Center to leverage additional public and private dollars and catalyze community revitalization. Adirondack projects have benefited from public funding from Empire State Development, NY Department of State, and New York State Homes and Community Renewal program. Additionally, we gratefully acknowledge the following private foundations and community members whose generosity helped make this work possible, including people who contributed in honor of Ross and Beverly Whaley (*):

Thank you!
